

Join the fight against single-use plastics

As single-use plastic is difficult to recycle, it often ends up in landfill or incinerators, or finds its way into our waterways to devastating effect.

It's estimated that by 2050, our oceans will contain more plastic than fish by weight. From local beaches to the remote Arctic, plastic pollution is the most visible example of the harm we're causing to our planet.

In this current climate, companies are keen to show how they are minimising their impact on the environment and are taking their Corporate Social Responsibility seriously, something that consumers now expect. Purchasing sustainable and eco-friendly promotional marketing tools such as our 100% seed and plant based promotional

products that avoid plastic is a small but important contribution that can help turn the tide on plastic pollution.

By reducing waste and enhancing the local environment, all of the products in the Sow Easy range offer an eco-friendly, sustainable alternative to single-use plastics and harmful plastic promotional merchandise. Along with helping the planet, opting for seed and plant products improves the image of a corporate brand, sending a powerful and enduring message of sustainability, responsibility and commitment.

Why choose seeds & plants?

As well as bringing flashes of colour and fragrance to our environment, plants provide an array of benefits. Dig a little deeper and you'll find they play a vital role in creating a feeling of wellbeing, improving air quality, balancing the ecosystem, and teaching our little ones some important life lessons.

Being close to nature can help us to feel more at ease in our working environment and, according to research, we experience less stress when plants are around us. They also make the workplace more stimulating and interesting, helping to make us happier and more productive.

Plants are also a natural air purifier. As they have large surface areas, and exchange gases and water with their surroundings, they can tackle a range of issues, not least reducing levels of carbon dioxide and other pollutants such as benzene and nitrogen oxide, but also increasing humidity and reducing airborne dust levels.

Outdoors, plants attract birds, butterflies and bees by offering them all the comforts of home. Butterflies sip nectar, bees eat pollen, and birds feast on seeds and berries – and all of these creatures are vital for keeping our ecosystem in balance. This makes it in our interest to protect them and if all it takes is growing a plant or two, then why not?

Growing plants also provides an excellent hands-on learning opportunity for children. It helps them to find out more about healthy eating habits, caring for the environment, learning to be patient as the seeds grow, and to be responsible for a living thing. And it's a great way to spend more time outdoors!

SEEDSTICKS

The small giveaway with a big impact

Based on the original matchbook design patented in 1892, Seedsticks® are our most popular promotional item. Each stick contains a seed that will grow when placed in soil, sprouting a lasting impression of your business and reinforcing its eco-friendly credentials.

Available with a variety of seeds and pack sizes, Seedsticks can be customised with your business branding and logo. As well as bespoke shapes, we also offer an ever-growing range of designs to suit any industry, brand or campaign. If you can't find what you're looking for, please get in touch and we'll be happy to create a unique shape for a truly memorable giveaway.

Seedsticks are exceptionally versatile and can meet any promotional requirements and budget. Use them as a memorable giveaway, a corporate gift in trade show goodie bags, or sell custom-made versions in your retail space to add another revenue stream to your business.

We manufacture Seedsticks in-house to the highest standards at our UK factory, using 100% recycled FSC-certified board, veg and soy inks, and non-toxic glue, ensuring the highest germination rates in the industry. All of our seeds have a long shelf life of 18 to 24 months.

What are Seedsticks

Growing from seeds has never been easier.

1 Break off a Seedstick

2 Push the pointed end into soil up to the depth line and water

3 Leave the stick in position as your new plant grows

Why choose Seedsticks®?

SEED PACKETS

A budget-friendly option that packs a promotional punch

Seed Packets are an inexpensive and versatile promotional item that can help your relationships with customers to truly blossom. Available in different sizes, from a credit card to a large envelope, they are compact and lightweight. Pop them in the post for direct mail campaigns, hang them round a bottle or jar for food and drink promotions, or use them as magazine cover mounts, gifts and giveaways.

Our Seed Packet Envelopes are high-quality and durable with the kraft option having a stunning natural texture thanks to the production process - this involves converting wood into wood pulp consisting of pure cellulose fibres, used in the production of paper. They are proudly manufactured here in the UK, and include Made in Britain certified Seedsticks®.

We also offer Seed Packets (with a seed sachet) which are foil sealed, protecting the seeds from moisture and ensuring a long shelf life, which makes them suitable for use at any time of year.

A wide selection of flower, vegetable and herb seeds or mixed varieties are available. All of our seeds have a long shelf life of 18 to 24 months. All printing uses soy and vegetable ink on 100% recycled gloss, matte or kraft board for minimal environmental impact.

SEEDED PAPERS

Plant the paper, watch it grow

Plantable Seeded Paper is a versatile eco-friendly item for communicating the green aspects of your company. It encourages your customers to interact with your brand, as they can plant the paper after use to grow wildflowers that benefit the environment.

Each handmade sheet is made from post-consumer waste and embedded with flower, herb or vegetable seeds. Simply place under a thin layer of soil, keep moist, and as sprouts grow, the paper composts away, leaving zero waste but maximum impact.

Perfect for printing using soy and vegetable inks, Seeded Paper can be customised with logos, texts or slogans. Alternatively, you can write personal messages using pens, calligraphy markers, or print on the paper itself.

Choose from a wide range of customisable shapes and formats, including innovative business cards, bookmarks, postcards, greeting cards, replica bank notes, drinks coasters, and more!

Seeded Paper items can be used all year round and have a long shelf life of up to two years if stored in a cool, dry place for optimum results. All seeds are non-GMO, tested for purity, and compliant with IPPC and EPPO standards.

Seeded Papers Range

Button Badges

Code: SE-SPR-046

Size: 51mm

GROW KITS

Fully customisable eco-friendly gifts

Our Grow Kits have a long-lasting impact and contain everything customers need to get growing straight away. On average, it takes seeds from as little as two weeks to germinate, which means maximum visibility for your company's branding, logos or promotional messages while the plant grows on a desk in the office or a windowsill at home. All of our seeds have a long shelf life of 18 to 24 months.

Choose from a wrap-around sleeve or boxed packaging, made with FSC certified material, and printed using soy and vegetable inks. The coir pellets in each kit are environmentally friendly peat-free and easy to use with many including easy-to-grow Seedsticks® that are proudly Made in Britain® certified. Simply plant the seeds, add water, find sunlight, and watch them grow.

We also offer workspace favourites Clay Pot Gardens and Desktop Gardens – ready-to-grow gifts that brighten up any desk. For postal options, try our Letterbox Gardens – our narrowest grow kit which fits easily through any letterbox. The packaging sleeve displaying your client's promotional message is wrapped around the grow kit, which is filled with a large fibre tablet and a small plant seed bag.

SEED STATIONERIES

Practical tools to draw attention to your brand

Our seed stationery range offers you the chance to put your brand directly in the hands of clients and prospective customers on a daily basis. Sustainable pens, pencils and pads make practical gifts or giveaways, and keep your name firmly in view. They also illustrate your company's commitment to sustainability, both externally and in-house.

For eco-friendly alternatives to promotional plastic pens, take note of the sustainable Sprout Pencil, which can be planted after use when it becomes too short to write or colour with. As it grows into flowers, herbs or vegetables, it's a visible and lasting reminder of your business. Available in different colours and it can also be customised. The Sprout Pencil can be engraved with a logo or short message. Full-colour packaging can also be provided for each individual pencil to increase impact at product launches, conferences and team-building events, as well as on the shelves in gift stores or garden centres.

When you're ready to put pen or pencil to paper, opt for our Seeded Paper Notepad - these pocket-sized notepads have plantable covers embedded with seeds and contain 40 post-consumer pages. They make great corporate gifts and are perfect green promotions to add to bags, hand out to clients, or to serve as a 'thank you' gift.

Seed Stationeries Range

Sprout Customised Pencils

Code: SE-STA-003

Size: 185mm x 7mm

QUANTITY	100	250	500	1,000
LEAD TIME (days)	8	8	8	8

GUERRILLA GARDENING

Sowing in the great outdoors

Guerrilla gardening is all about planting flowers in often neglected public spaces to enhance wildlife habitats and benefit the local environment. Traditionally it's done with forks and flowers, but our Seedboms and Seedballs offer an easier way to transform unloved spaces into areas of natural beauty. The beauty for your company is that these tools can provide a perfect floral fit for your requirements, and also highlight your long-term commitment to your local community.

Take the Seedbom - a grenade-shape biodegradable shell filled with organic compost and wildflower seeds. Compact and lightweight, it's easy to post, and ideal for igniting conversation at events and sparking awareness of your brand. Fully customisable from the packaging down to the seeds, it's a unique product manufactured to the highest standards.

The award-winning Seedball contains a mix of seeds, clay, peat-free compost and a little chilli powder in a 1cm-diameter sphere. Protected against predators, they are easy to scatter on soil and will grow into wildflowers, herbs and salads, helping to populate bees and butterflies while successfully promoting your business. Available in classic (and reusable) tins or matchboxes, they are fully customisable.

Guerrilla Gardening Range

Seedboms

Code: SE-GGS-002

Size: 50mm x 50mm x 80mm

Guerrilla gardening grenades filled with flower power potential. Throw and grow a Seedbom to spread wildflowers and support pollinating insects. Made from 100% compostable and organic materials. LEAD TIME (days)	5	5	5	10

ESSENTIALS RANGE

Affordable promotional products

Our Essentials range provides an even more affordable alternative to our most popular eco-friendly promotional products. With lower print runs and simple but effective customisation, this range is the perfect solution for clients with smaller budgets and/or those requiring lower print runs. For distributors, this means that low value orders can generate a healthy sales margin for your business.

As specialists in eco-friendly branded seed & plant giveaways, our products leave very little waste behind except for the gift of flowers and plants! Choose from either wildflowers or mixed herbs for your Essentials order. We use recycled paper, non-toxic ink and minimal single-use plastic, making the Essentials range not only economical, but also perfect for green and sustainable marketing campaigns.

Bespoke print options are kept simple for this affordable range by adding a branded sticker to each product. We can even offer help & support with artwork & design (for a small fee) if needed. Business logo and branding printed in full colour meaning that whilst these products may cost less, they still will promote your brand and business in style.

Order Information

ARTWORK

If artwork support is required, the cost is £40 per design. Any additional changes will be charged at £15 per amend. Multiple print designs within one order are usually treated and charged separately. For a bespoke Seedsticks® shape, a new die-cutting tool costs £200. This excludes the cost for designing the shape or template.

PRE-PRODUCTION SAMPLE

Please let us know if you would like a pre-production sample and we will advise the cost for this.

PRICING & LEAD TIMES

Prices and lead times are correct at time of publishing this catalogue version, but please be aware that these are subject to change at any time. We advise all customers to check the current price with us at the time of placing an order.

DELIVERY

Please note, prices in this catalogue apply to UK orders only. If you are ordering from outside of the UK, you will likely require an import licence for seeds and we will need to apply for a phytosanitary certificate, which costs approx. £35. This process will add at least one week to the lead time – please check with us for further details.

SET-UP FEE AND PAYMENT

Prices exclude a £40 set-up fee and VAT. If different seed options are required per order, another set-up fee will be charged. Prepayment is required for new clients. Terms are otherwise 14 days from the date of invoice.

Testimonials

Sow Easy delivered a fantastic product for our client's annual conference, the feedback received from multiple attendees was unprecedented and the exposure led to additional orders from new stakeholders in the business. Keep up the innovation guys!

James Crossan
Account Director
Brand Addition

We have worked with Sow Easy on a number of different projects – great products that our clients love, fast turnaround and reliable service. Always a pleasure to work with Jamie and the team.

Aimee O'Leary
Account Manager - EMEA
BDA

I have used Sow Easy for a number of years now and can thoroughly recommend them. Great service, support and especially good at coming up with new ideas!
